23:00:58   開始 Sirash [Antarikchya Pratisthan Nepal] : Hi Fahd , i have a
question
How do you use the LoRa IoT, (plan for IoT backend of the cloud)?, i understood
like you are using LoRa in only Physical Layer, Do you use LoRaWAN and other LoRa
Gateways?
In LoRa Mission Payload , Are LoRa parameters same for all the LoRa chips or they
operate in different LoRa parameters like Spreading
Factors,etc.

23:01:02   開始 syahrim - MYSA : Thank you for the presentation. Since you
used the same 400Mhz lora as kitsune's, how is the level of performance that you
expect? maybe in terms of frequency of receiving data from fixed or mobile ground
station.
