22:36:20 発信元: M. Berthet (UTokyo, Japan) : Thank you for the nice presentation. I have two questions. 1. To what extent are non-Malaysian engineers involved in the satellite's development? Is Malaysia acting as mentor/leader, with ASEAN international partners as mentee/follower? Or are engineering responsibilities distributed quite uniformly between countries? 2. If Malaysia is acting as leader this time, are there plans for another country to act as leader next time?

22:39:06 発信元: Arnaud Kayonga : Thank you for the comprehensive presentation, With regards to multiple stakeholders, what are the steps taken to gather, analyze their requirements and in addition prioritizing them?
